Criteria (listed in order of decreasing importance):

- 1.- Country of origin: Strong preference will given to applicants currently residing in countries not considered "high income" based on the website of the World Bank (<https://openknowledge.worldbank.org/handle/10986/23628>). Applicants originally from countries not considered "high income" but currently residing in "high income" countries will be considered only in the case that there were not enough candidates from the first category.
- 2.- Statement of purpose (2 page limit): The applicant must provide a written statement (in English) explaining their interest and experience in paratuberculosis, what they know of the paratuberculosis situation in their country, and why they would like to attend the 15 ICP.
- 3.- 15 ICP abstract: An abstract for a presentation at the 15 ICP concerning any aspect of paratuberculosis is mandatory for applicants from countries that have already received two or more HH awards during the last 5 year period. For applicants from other countries, an abstract would be positively considered but is not mandatory.
- 4.- Applicant status: Applicants may or not be members of the IAP.
- 5.- Young researchers are encouraged to apply and will be prioritized. Senior candidates will be considered only if there are not enough qualified junior applicants.
- 6.- Repeat awards: The number of times that the same person can receive an HH award is 3 in order to reach a broader range of researchers. In case of a tie, applicants that have already received an H&H award will have lower priority than those not having received any.
- 7.- Number of awards per country: No more than 2 awards will go to the same country while there are applicants from countries with fewer than that number of applications.
- 8.- Number of awards to the same group/institution: Priority will be given to members of different groups. No more than 2 awards will go to the members of the same research group while there are applicants from other groups.
